FLORIDA'S FORENSIC INSTITUTE FOR RESEARCH, SECURITY, AND TACTICS

Training Announcement: Advanced Hostage Negotiations

40 hours

This course will provide negotiators with advanced training needed to expand and improve the amount of confidence they hold in their current negotiation skills and procedures. Research has demonstrated the effectiveness of role-play scenarios adapted from real world hostage/crisis incidents in training future negotiators. The curriculum will utilize a collection of these adapted scenarios, applied in as close to their real-world environments as possible to prepare students for the realities they will face while assigned to their various teams.

This course will expose students to the environmental hazards and complications that will invariably play into the negotiation process of real events by exercises at the following types of locations.

- Court House
- Jail
- School
- Bus
- House of Worship
- Sea Port
- Shopping Mall
- Sporting Event
- Airport
