

Okaloosa County 911 Emergency Operations Center

For easy access, please use the "West Entrance" to the Northwest Florida State College campus. After turning into the entrance, take a right onto McCracken Way and then immediately make a left (this road isn't named). The parking lot will be on the left and the building is directly across from the parking lot.

Please walk through the opening in the black fence that surrounds the employee parking lot, which will bring you to the front door of the building. The building will have the Okaloosa County logo and the building name which is "911 Emergency Operations Center" at the entrance. You will have to push the button on the call box to gain entry into the building as the doors are locked.
